## **About John Beck:**

- John founded *BeckCFO* in 2007 after 4 years of interim consulting with another well known and respected interim executive group, where he was General Manager of the finance and accounting services division. John has over 25 years of experience in financial management, strategic planning and execution for technology firms and has held full-time CFO positions with both public and private companies. His broad experience includes managing cross-functional areas such as IP management, legal, treasury, risk management, HR, IT and facilities. In addition he has managed the accounting, finance and reporting requirements of European and Asian offices.
- John serves as interim CFO for companies in a variety of industries including medical device, green technology, fabless semiconductor, internet security, software and high-tech manufacturing.
- Earlier John served as CFO of several Silicon Valley technology firms ranging from development stage through public companies after being a CPA in senior audit positions at "Big 4" public accounting firms.
